RUFAI AMINAT

Web Developer | Software Development, Website Management & IT Systems Professional

Lagos, Nigeria | +234 806 678 0758 | bolanletolani93@gmail.com

PROFESSIONAL SUMMARY

Results driven Web Developer with over four years of progressive experience across web development, website management, IT systems administration and data analysis. Skilled in building and maintaining responsive websites and frontend interfaces with React, Next.js and Tailwind CSS, translating client needs into clear requirements, managing hosting and database infrastructure, and reporting on website performance to support business decisions. Holds a Bachelor of Arts in English Language and an ALX Software Engineering certification. Completed NYSC in July 2026. Known for discipline, curiosity and clear communication with both technical and non technical stakeholders, and now seeking to build a career in technology and innovation through a structured graduate programme.

PROFESSIONAL EXPERIENCE

Frontend Developer (Freelance) | 2026 to Present

WALE, Kwara, Nigeria

- Designed and built complete app screens, from layout to working pages, using React, Next.js and Tailwind CSS.
- Developed reusable components and handled routing, state and the display of data across screens.
- Tested every screen across devices and browsers and fixed interface issues.

Frontend Developer (Freelance) | 2026 to Present

Ceeravo, Lagos, Nigeria

- Built the full set of screens for an app, turning designs and requirements into working, mobile responsive pages with Next.js and React.
- Styled every screen with Tailwind CSS for a consistent and clean look.
- Connected screens to APIs and data sources to show live content to users.

Frontend Developer (Freelance) | 2026 to Present

Enumconnect, Lagos, Nigeria

- Developed complete app screens and frontend features using React, Next.js and Tailwind CSS.
- Worked with teammates to plan features, review work and fix bugs quickly.
- Improved page speed, accessibility and usability across screen sizes.

Administrative Assistant (NYSC) | July 2025 to July 2026

Ladoke Akintola University of Technology, Oyo State, Nigeria

- Typed, formatted and proofread official documents and correspondence.
- Filed and organized physical and digital records for quick retrieval.
- Maintained accurate records and supported day to day office tasks.

Website Manager | April 2024 to Present

Cravex Originals, Kwara, Nigeria

- Monitor website performance and uptime, ensuring consistent functionality, speed and mobile responsiveness.
- Compile and present performance reports that directly inform business and technology strategy decisions.
- Restructured site architecture and improved on page SEO, strengthening organic search visibility.

Web and System Administrator | October 2023 to October 2024

Petra Essence, Kwara, Nigeria

- Managed hosting, domain, cloud service and database infrastructure from start to finish, including a regular backup schedule to protect against data loss.

- Served as the primary technical support contact for staff, resolving IT issues promptly to minimize downtime.

Web Developer | July 2022 to August 2023

COGA Brand, Lagos, Nigeria

- Collaborated with clients to assess needs and translate them into clear, actionable website requirements.
- Partnered with designers and stakeholders to build interfaces that were easy to use and approved by clients.
- Implemented security best practices and maintained regular system updates.

Data Analyst | February 2022 to July 2022

Rmk Organisation of Nigeria, Lagos, Nigeria

- Maintained accurate records across spreadsheets and databases.
- Used Excel, SQL and Power BI or Tableau to analyse and visualize data for decision making.
- Supported database management and data extraction tasks across teams.
